

Industrial Glass Tube Thermometers

Whilst retaining the well-proven features of robust design, 100% inter-changeability, same mounting & dimensions the Denvar industrial glass tube thermometer offer much better readability.

The black numerals are screen printed on the casing and black graduation are deeply etched on the glass tube. Each thermometer is accurately calibrated.

The Features of Industrial Glass Tube Thermometers:

Casing	Aluminium bar stock golden anodised / Golden unbreakable plastic .
Casing length	100mm / 150mm
Marking	Black screen printed on right side of the case
Glass inserts	Solid glass prismatic capillary tube, white or yellow background
Capillary fluid	For -30°C to +200°C red thermometric fluid, for temperature range more than 200°C Hg. columns.
Immersion Tube (stem)	Brass chrome plated (Std.) SS 304 / SS 316 (Optional).
Immersion Tube O.D.	10mm
Immersion tube length	63 mm, 100 mm, 160mm, 250mm..(Longer length on request)
Type	Straight Vertical and 90° angle type.
Accuracy	About 1.5% of the max. scale value.
Connection	3/8", 1/2", BSP or NPT (M) or M 20 x 1.5
